Ken Everest Nunes

Philadelphia, PA | (267)-688-8038 | kennunes77@gmail.com | linkedin.com/in/ken-nunes-5694241a3

EDUCATION

Drexel University Philadelphia, PA
Master of Science in Computer Science (Expected Graduation: June, 2026) CGPA: 3.85 / 4

Mumbai University Mumbai, India
Bachelor of Engineering in Computer Engineering (Graduation: June, 2023) CGPA: 3.8 / 4

EXPERIENCE

Amazon.com Services LLC | SDE 1 Intern | Jun 2025 - Oct 2025 Bellevue, WA

- Led the development of an AI-based Ticket Resolution Helper Tool, reducing the team's operational workload by 31%.
- Designed and deployed a single-agent model, achieving performance comparable to the multi-agent architecture while cutting infrastructure costs by ~50%.
- Integrated Amazon Bedrock Agent with multiple internal tools to enable automated data retrieval and ticket resolution.
- Implemented a confidence scoring and classification mechanism, ensuring the system resolved only inventory-related tickets when all required data was available, improving accuracy and reliability.

Rajkamal Barscan Systems Pvt Ltd | Software Developer | Jun 2023 - Jun 2024 Mumbai, India

- Led the development of RESTful APIs and deployed React.js applications, ensuring optimal performance and seamless user experience by continuously monitoring server load times and optimizing API responses.
- Managed the end-to-end development of a fully dynamic website, resulting in a 30% increase in user engagement by optimizing front-end rendering and enhancing responsiveness.
- Integrated MySQL databases into web projects, improving system scalability and optimizing back-end performance for efficient data management.
- Directed the design and deployment of an internal user portal that optimized content control and workflow using role-based access, improving organizational efficiency.
- Collaborated with cross-functional teams to troubleshoot and solve integration issues, ensuring seamless connection between front-end and back-end services using React.js, Node.js, and Tailwind CSS.

PROJECTS

E-commerce Price Comparison and Review Sentiment Analyzer (Oct 2023 - Apr 2024)

- Designed and developed a price comparison website to aggregate product prices, reviews, and ratings from multiple e-commerce platforms.
- Implemented web scraping with Python and BeautifulSoup to extract product data from e-commerce sites, and built RESTful APIs using Django REST framework to serve the data with fast response times.
- Trained a Random Forest model to classify 10,000+ reviews with 92% accuracy, improving user decision-making with sentiment insights.

PUBLICATIONS

Convergence of Machine Learning for Peer-to-Peer Money Lending. **(**June, 2023)
Published in Telematique, Volume 22, Issue 1.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, TypeScript.
Frameworks & Libraries: React.js, Redux, Express.js, Node.js , Django, Django REST Framework.
Tools & Technologies: MYSQL, Git, RESTful API, Kafka, Redis, Docker, MongoDB, AWS Lambda.
